REQUEST FOR PROPOSAL (RFP) FOR PARENTING ENRICHMENT SERVICES

MISSION STATEMENT

We, the staff of the Hamilton County Department of Job & Family Services, provide services for our community today to enhance the quality of living for a better tomorrow.

1.0 REQUIREMENTS & SPECIFICATIONS

1.1 Introduction & Purpose of the Request for Proposal

The Board of County Commissioners, Hamilton County, Ohio (BOCC) reserves the right to award Contracts for these services to multiple Providers and to award Contracts for all or any of portion of the services requested herein. The Contract(s) shall be for an initial term of one (1) year ("Initial Term") with two (2) one (1) year renewal option ("Optional Renewal Term") at the sole discretion of HCJFS.

If at any time during the Initial Term or any Optional Renewal Term, HCJFS determines that service capacity needs to be expanded HCJFS may re-release this RFP. Any contracts awarded from a re-issued RFP(s) will expire at the same time as the contracts awarded under the initial RFP. All proposals submitted as a part of a re-released RFP will be subject to and evaluated based upon the same criteria set forth in the initial RFP (plus any addenda issued as a part of the initial RFP).

Provider agrees that if selected by HCJFS under this RFP or any re-released RFP and if requested by HCJFS, that it will enter into an extension of the Contract for up to 90 days following the expiration of the term then in effect under the current terms, conditions and prices applicable at that point in time. This will allow HCJFS to make a seamless transition to any new Provider and mitigate negative impact for customers.

1.2 Scope of Service

The purpose of this request is to solicit for Hamilton County child welfare families the design and implementation of an evidence-based practice model of intensive in-home programming emphasizing an integrated behavioral health and child welfare Family-Centered Practice model. This program will provide trauma informed intensive in-home, hands-on, rapid engagement and assessment, parent child coordination using a multi-system approach to intervention services for families who have an open case with HCJFS. The services are designed to work hand-in-hand with assigned child welfare case workers and other community stakeholders. The Services must be provided by competent, trauma certified professionals, with knowledge of child welfare families and system, who are focused on delivering services to:

1. Understand, integrate, and contribute information for HCJFS completion of Comprehensive Assessment and Planning Model-Interim System (CAPMIS) assessments that evaluate family attributes for safety, permanency and well-being, that encompasses a strength based approach;
2. Engage families in designing services, treatment planning, program evaluation and providing lived experience mentorship;
3. Encourage families to define barriers for their children to safely remain at home or reunify with families of origin, and assist in identifying ways to eliminate these barriers;
4. Deliver trauma informed, individualized, culturally responsive, flexible, and outcome based services;
5. Eliminate reoccurrence of maltreatment and re-entry into custody, and promote safe reunification; and
6. Be aligned with Ohio Child Protection Oversight and Evaluation (CPOE) safety, permanency, and well-being indicators, and consistent with the legal framework of child welfare and its values.

Family services and supports are designed and delivered to the family, not just individuals, by building on the strengths of the family and are supportive, and culturally competent.

A. Family Centered Practice

As noted on the Child Welfare Information Gateway, <http://www.childwelfare.gov>, Family-centered practice is characterized by mutual trust, respect, honesty, and open communication between parents and service Providers. Families are active participants in the development of policy, program design and evaluation, and they are active decision-makers in selecting services for themselves and their child/youth. Family and child assessment is strengths-based and solution-focused. Services are to be delivered primarily in the home and family's community, and build upon informal supports and resources.

Family-centered practice is based upon these core values:

1. The best place for children/youth to grow up is in families.
2. Providing services that engage, involve, strengthen and support families is the most effective approach to ensuring a child's/youth's safety, permanency and well-being.

Key components of family-centered practice include:

1. Working with the family unit to ensure the safety and well-being of all family members.
2. Strengthening the capacity of families to function effectively and safely.
3. Engaging, empowering, and partnering with families throughout the decision and goal- making process.
4. Providing individualized, culturally-responsive, flexible, and relevant services for each family.
5. Linking families with collaborative, comprehensive, culturally relevant, community-based and faith-based networks for supports and services.
6. The practice will support the significance of the child's/youth's birth family and need to preserve the integrity of the family.

B. Protective Factors

HCJFS is committed to weaving the 6 protective factors as developed by the Center for the Study of Social Policy into all aspects of the child welfare system. Provider shall explain how these factors will be implemented in their service proposals.

The six (6) protective factors known to reduce child/youth maltreatment should be integrated within families, across systems and throughout communities. They are:

1. ***Nurturing and Attachment*** – A child's/youth's ability to interact positively with others, to self-regulate, and to effectively communicate his or her emotions has a great impact on the parent-child/youth relationship. A child's/youth's social and emotional development is highly dependent on the quality of a young child's/youth's primary relationships. How caregivers respond to child's/youth's emotional expression profoundly influences how they learn to process, understand, and cope with such feelings as anger, happiness, and sadness. Promoting positive behavior and responses in children/youth could strengthen parent-child/youth relationships.
2. ***Knowledge of Parenting and Child and Youth Development*** – Extensive research links healthy child development to effective parenting. Children/youth thrive when parents provide not only affection, but also respectful communication and listening, consistent rules and expectations, and safe opportunities that promote independence. Successful parenting fosters psychological adjustment, helps children/youth succeed in school, encourages curiosity about the world, and motivates children/youth to achieve.
3. ***Parental Resilience*** – Parents who can cope with the stresses of everyday life, as well as an occasional crisis, have resilience; they have the flexibility and inner strength necessary to bounce back when things are not going well. Multiple life stressors, such as a family history of abuse or neglect, health problems, marital conflict, or domestic or community violence, and financial stressors such as unemployment, poverty, and homelessness, may reduce a parent's capacity to cope effectively with the typical day-to-day stresses of raising children/youth.
4. ***Social Connections*** – Parents with a social network of emotionally supportive friends, family and neighbors often find that it is easier to care for their children/youth and themselves. Most parents need people they can call on once in a while when they need a sympathetic listener, advice, or concrete support. Research has shown that parents who are isolated, with few social connections, are at higher risk for child abuse and neglect.

5. **Concrete Support** – Partnering with parents to identify and access resources in the community may help prevent the stress that sometimes precipitates child maltreatment. Providing concrete support may also help prevent the unintended neglect that sometimes occurs when parents are unable to provide for their children/youth.
6. **Social and Emotional Competence of Children** - Parents support healthy social and emotional development in children/youth when they model how to express and communicate emotions effectively, self-regulate, and make friends. A child's/youth's social and emotional competence is crucial to sound relationships with family, adults, and peers. Conversely, delayed social-emotional development may obstruct healthy relationships. Early identification of such delays and early assistance for children/youth and parents can provide support for family relationships and sustain positive and appropriate development.

HCJFS' goal is to work with Providers who demonstrate a competent and experienced delivery of the entire continuum of services, as described in section 1.2.2, Service Components.

1.2.1 Population

Population served includes a family in crisis that has child/youth who are unsafe. When children/youth are unsafe, there must be a parent/caregiver who is available to protect the children/youth and who is willing and able to participate in the services. These services are initiated based on HCJFS's safety and family assessments that the parents' capacity to protect is diminished, and due to identified safety threats their children have been or may be removed from their home.

The following are examples of potential referrals with families who have experienced trauma and any of the following factors impact their ability to safely parent:

1. Families with a child/youth who are alleged to be victims of abuse or neglect;
2. Families with parents who use or abuse substances;
3. Families with children/youth in protective supervision orders;

4. Families with a history or active domestic violence;
5. Families with mental health issues.

All costs must be specified for the various parts of the program. Cost must be broken down by type of work as well as classifications for staff, i.e. senior program manager vs. lower level position.

The Case Rate for each Contract year must be listed on the Cover Sheet, Attachment A.

- E. For the purposes of this RFP, “unallowable” program costs (detailed list is located in 2 CFR Part 200 Subpart E) include:

Provider shall promptly notify HCJFS, in writing, that either a) HCJFS is permitted to release these documents, or b) Provider intends to take immediate legal action to prevent its release to a third party. A failure of Provider to respond within five (5) business days shall be deemed permission for HCJFS to release such documents.

It is Provider’s sole responsibility to legally defend the actions of HCJFS for withholding Provider’s documents as trade secrets or otherwise exempted information if the issue is challenged.

4.10 Provider Certification Process

HCJFS reserves the right to complete the Provider Certification process for selected Providers. Mgmt Indirect Cost

A rationale or basis for the allocation of Mgmt Indirect cost which details how the amount charged to the proposed service was determined must be included. Records substantiating development of the means of these costs must be provided with your budget submittal and also maintained by your agency. Mgmt Indirect costs, allocated to the proposed service(s) should not exceed 15% of the total proposed service(s) cost. After allocating Mgmt Indirect costs between Other Direct Services and the proposed service(s), total program expenses for Mgmt Indirect should equal zero.

PAGE 4 - SECTION E – OCCUPANCY COSTS

This section is used to enter occupancy costs that will be associated with the proposed service. If your agency is renting the entire building and using all of the space for the proposed service, enter the total rental amount for the building. If your agency is renting the entire building and not using all of the space for the proposed service, the rental cost for the proposed service is calculated by multiplying the Cost per Square

Foot by the total Square Footage of the space used for the proposed service. The remaining rental cost should be entered under “Other Direct Ser”.

If your agency owns the building, a charge for depreciation **or** usage allowance is allowable. Depreciation or usage allowance should be applied to the original acquisition cost of the building. Depreciation should be calculated using the straight-line method. The lifespan of a nonresidential building is 31.5 years for property placed in service before May 13, 1993. If the property was placed in service after May 13, 1993 the lifespan is 39 years per the Internal Revenue Service (IRS) (Publication 946). If the building has been fully depreciated, the usage allowance method should be used. The usage allowance is limited to 2% of the original acquisition cost.

PAGE 5 - SECTION F – TRAVEL COSTS

This section is used to enter the costs of operation, maintenance, and repairs of agency vehicles when relevant to the delivery of the proposed service. Such costs may be charged on an actual cost basis, a per diem or mileage basis in lieu of actual costs incurred, or a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed in like circumstances in the non-profit organization's non-federally sponsored activities. The amount paid for mileage reimbursement should not exceed HCJFS' reimbursement rate, which is the rate determined by the IRS. The reimbursement rate can be found on the IRS website.

Conference and meeting costs are allowable if the primary purpose is the dissemination of technical information relating to the proposed service. Purchased transportation is allowable if required for the delivery of the proposed service.

PAGE 5 - SECTION G – INSURANCE COSTS

This section is used to enter insurance costs relevant to the delivery of the proposed service. Some agencies allocate all insurance costs to the Mgmt Indirect column of their budgets, and then allocate them along with all the other shared type of costs. If one service operated by the agency has disproportionate insurance costs (either higher or lower) than the other agency services, then a more appropriate method would be to show the insurance costs in the column for that service. Records substantiating development of the means of allocating must be provided with your budget submittal and also maintained in your agency.

Leased equipment in excess of \$5,000.00 must be depreciated. If your agency has, or acquires equipment costing \$5,000.00 or more with an anticipated useful life in excess of one (1) year a charge for depreciation is allowable.

Depreciation should be calculated using the straight-line method. Refer to IRS guidelines to determine the useful life of equipment. Follow the instructions on Page 7 of Budget Form to calculate depreciation.

Any items of equipment used by the Management and Indirect activities of the Agency for which costs are included in this budget must also be itemized on this sheet. Provider Certification

Hamilton County Department of Job and Family Services¹²³

Provider Certification Process

(Revised 5/10)

I. Overview

The purpose of the **Hamilton County Department of Job and Family Services (HCJFS) Provider Certification Process** is to assess a service provider's administrative capacity to effectively manage an HCJFS contract. The process is designed strictly for internal HCJFS decision making and should not be seen as an official accreditation, licensing or endorsement of a provider program or agency. The process is divided into three (3) sections -**A. Program Identifying Information, B. Administrative Capacity and C. Quality Assurance**. Sections A. and B. may be completed prior to contract signing. Section C. within six (6) months of contract signing. A six (6) month period is given for Section C. to allow time for smaller agencies who may not have all of the quality assurance components in place. As with any process, there are always exceptions so consult with management if certain portions of the document are not applicable to a specific provider.

A. **Program Identifying Information (Section A)** - identifies key information such as:

1. agency name and address;
2. director's name;
3. service being purchased;
4. hours/days of operation, etc.

B. **Administrative Capacity (Section B)** - identifies administrative areas which are key to an effective operation such as:

1. accounting and record keeping systems;
2. copies of important documents such as the table of organization, Articles of Incorporation, insurance, etc.;
3. review of provider personnel files for proof of drivers' licenses, insurance, professional credentials, etc.;
4. tour of the provider's facility.

None of this information is to be released to anyone other than the provider without HCJFS management approval.

C. **Quality Assurance (Section C)** - identifies processes and procedures for ensuring quality service such as:

1. program staff training plan;
2. staff policy and procedure manual;
3. quality assurance plan/activities.

Refer to detailed instructions for completing the certification document.

2. Reviewed and accepted: <ul style="list-style-type: none"> a. Most recent annual independent audit or comparable financial documents; b. audit management letter, if applicable; c. SAS61 (auditor's communication to the board's audit committee), if applicable; d. most recent 990 and Schedule A ; e. most recent federal income tax return; f. written internal financial controls. 	<p>This information is used to determine the financial status of an agency. Things to look for are:</p> <ol style="list-style-type: none"> 1. Did the audit firm issue an unqualified opinion on the report? If not, a further review of the agency's financial status should be conducted. If the audit report is not for the prior calendar year, ask when the report will be finished and follow-up with provider to obtain a copy. 2. Do the attachments/exhibits indicate problems, recommendations, etc.? 3. Does the audit management letter indicate a problem or areas that need improvement? 4. Does the SAS61 indicate problems, concerns, etc.? 5. The 990 repeats much of the information in the independent audit but also includes the salaries for the top 5 positions earning over \$50,000.00 per year. 6. Were taxes filed timely? If not, why? Were extensions requests done timely? 7. Do the controls indicate a separation of duties? Is there a clear understanding of duties and roles? For assistance in developing internal financial controls, providers can consult the standards issued by the GAO in the booklet titled <i>Government Auditing Standards</i>. Table of organization should show the relationship of the contracted service to the entire organization. The T.O. may reference programs for positions. 4. The service/attendance form is the sheet used to document units of service. Determine if information maintained is adequate - client names, date, begin/end time, unit(s) of service, name of teacher/case worker, etc. 5. The contract service contingency plan is to detail how service will be provided to HCJFS clients should the provider be unable to comply with the contract terms. What is the provider's back-up plan?

Determine how the agency will meet payroll and other contract related expenses during the start-up period, prior to receiving the first contract reimbursement. 5. Review the process for reporting expenses, service and performance goals. Does provider have the administrative capacity to manage the contract in an accurate and timely fashion? In the program area?
